# A UAE based Insurance Industry Solution Provider

## PROBLEM

The client wanted to create an Insurance Workflow Management product such that each of its customers' workflow could be implemented in their proprietary approach with custom rules for evaluating applications

## SOLUTION

Implement the workflow using a standard workflow implementation supplemented by dynamic rules from a rules engine. These coupled with reusable services ensured minimal code level changes across tenants, bringing down overall cost of implementation

## BENEFITS

### Shorter Sales Cycle

Shortening of Sales cycle due to quick prototype implementation

### Cost Optimization

Minimize overall cost as workflow changes are implemented with minimal effort

### Process Automation

end-to-end automation of workflows
